## INTRODUCTION

The Center for Security Policy is pleased to release its twelfth National Security Scorecard since its first in 1994. As with previous iterations, it is designed to illuminate the voting record of members of the United States Senate and House of Representatives on important defense and foreign policy issues.

Toward that end, this edition of the National Security Scorecard conforms to the approach taken in previous versions. We have selected Congressional votes on the basis of their significance to the vital security policy interests of the United States. We have, moreover, selected votes that offer real insights into the attitude of the legislators casting them concerning critical national security issues of the day.

Such considerations prompt us generally to exclude near-unanimous votes, non-controversial or hortatory resolutions, or votes on final passage of each chambers' annual defense spending bills or their conference reports.

It is important to note that while the scorecard is a critical tool for analyzing a legislator's national security record, it is not the only measure of that record. By definition, scorecards look only at issues that were brought to a vote – they do not capture statements or other forms of discussion and debate, on and off Capitol Hill, that also contribute to the totality of a legislator's views.

In producing this year's National Security Scorecard, the Center for Security Policy hopes to assist the American people in understanding the performance of their elected officials with respect to vital national security issues—and to encourage greater accountability on the part of Senators and Members of Congress for their votes in this portfolio.

Scores are bases upon the legislator's aggregate record on these important votes. If, for example, a Senator was absent for two of the examined votes, but cast his or her remaining votes in a pro-national security way, he or she would receive a total score of 100%. The same applies for votes taken before a Senator assumed office in mid-term; votes for the session from before he or she started serving do not count towards the total votes cast.

An online version of this 2015-2016 Congressional Scorecard is available at: <a href="http://www.centerforsecuritypolicy.org/2016/10/11/2015-2016-congressional-national-security-scorecard/">http://www.centerforsecuritypolicy.org/2016/10/11/2015-2016-congressional-national-security-scorecard/</a>

An anti-national security vote; can be either a yea or nay.

Legend + -NV P I Did Not Vote Voted Present

Ineligible to vote (e.g. not in office)

Speaker of the House (Typically the Speaker does not participate in roll call votes)

Scores are based upon the legislator's aggregate record on these important votes. If, for example, a Member was absent for two of the examined votes, but cast his or her remaining votes in a pro-national security way, he or she would receive a total score of 100%. The same applies for votes taken before a Senator assumed office in mid-term; votes for the session from before he or she started serving do not count towards the total votes cast

### Senate Vote Descriptions, 2015

- 1. Climate Change Agreements Require Senate Ratification. The Blunt amendment (R-Missouri) expressed the sense of the Senate that, among other things, any bilateral or international agreement involving greenhouse gas emissions requires advice and consent of the Senate. Pro-national security vote: YES; Rejected 46-51, 3 not voting (required 3/5 majority vote for passage) (Vote #20, Jan. 22, 2015)
- 2. Override Obama Veto of Keystone XL Pipeline. President Obama vetoed S. 1, a bill to approve construction of the Keystone XL Pipeline, on Feb. 25, 2015. A vote was taken in the Senate to override that veto, which would have required a two-thirds vote in favor of override. Pro-national security vote: YES; Veto sustained 62-37, 1 not voting. (Vote #68, March 4, 2015)
- **3. Substantially Increase Defense Spending.** The Rubio amendment (R-Florida) would have increased defense spending for fiscal year 2016 to \$697 billion, closer to what the Department of Defense's projected budgetary needs for FY 2016, as projected in the Department's FY 2012 budget. Pro-national security vote: YES; Rejected 32-68. (Vote #96, March 26, 2015)
- **4. Prevent U.S. Funds for U.N. Arms Trade Treaty Implementation.** The Inhofe amendment (R-Oklahoma) prevented U.S. taxpayer funds from going towards implementation of the United Nations Arms Trade Treaty, or organizations created to support implementation, prior to ratification by the U.S. Senate. Pro-national security vote: YES; Passed 59-41. (Vote #108, March 26, 2015)
- **5. Declare Iran Deal to be a Treaty.** The Johnson amendment (R-Wisconsin) would have declared that any agreement reached by President Obama concerning the Iranian nuclear program would be a treaty subject to advice and consent of the Senate. Pro-national security vote: YES; Rejected 39-57, 4 not voting. (Vote #167, April 28, 2015)
- 6. Require the President to certify Iran is not engaged in terrorism. The Barrasso amendment (R-WY) to the Iran Nuclear Agreement Review Act would have required the President to certify that Iran was not engaged in terrorism against the United States or American citizens abroad. Pro-national security vote: YES; Rejected 54-45, 1 not voting (required 3/5 majority vote for passage) (Vote #168, April 29, 2015)
- **7. Arm and train Kurdish forces directly.** The Ernst amendment (R-IA) would have provided the administration with the authority to provide weapons and training directly to the Kurdistan Regional Government and bypass the government of Iraq in the process. Pro-national security vote: YES; Rejected, 54-45, 1 not voting (required 3/5 majority vote for passage) (Vote #210, June 16, 2015)
- 8. Vote to proceed with voting on resolution of disapproval of Iran deal. The vote was on whether to invoke "cloture" on the filibuster of the McConnell amendment (R-KY), and therefore proceed to voting on the amendment, which would have expressed Senate disapproval of the Iran nuclear deal and any lifting of sanctions against Iran. Pro-national security vote: YES; Rejected 42-56, 2 not voting (60 votes required for successful motion to invoke cloture) (Vote # 267, September 17, 2015)
- 9. Vote to proceed to voting on denial of funds and other penalties for sanctuary cities, illegal entrants. The vote was on whether to invoke "cloture" on the filibuster of S. 2146, a bill that would have denied federal funds to jurisdictions that restrict information sharing on an individual's immigration status or prohibit state compliance with detainer requests, and would have increased criminal penalties for individuals who reenter the United States after being denied admission or removed. Pro-national security vote: YES; Rejected 54-45, 1 not voting (60 votes required for successful motion to invoke cloture) (Vote #280, Oct. 20, 2015)

### Senate Vote Descriptions, 2016

10. Vote to proceed with voting on bill to pause Syrian and Iraqi refugee admission. The vote was on whether to invoke "cloture" on the filibuster of H.R. 4038, which would have required the Obama administration to certify that each Syrian or Iraqi refugee was not a national security threat before that refugee could be admitted to the United States. Pro-national security vote: YES; Rejected 55-43 (60 votes required for successful motion to invoke cloture) (Vote #4, Jan. 20, 2016)

- 11. Vote to proceed with voting on bill to increase defense spending. The vote was on whether to invoke "cloture" on the filibuster of the McCain amendment (R-AZ), which would have added \$18 billion to defense spending by doing so through the overseas contingency operations fund, rather than through the regular base budget process. Pro-national security vote: YES; Rejected 56-42, 2 not voting (60 votes required for successful motion to invoke cloture) (Vote #96, June 9, 2016)
- 12. Vote to proceed with voting on bill to prevent suspected terrorists from purchasing firearms. The vote was on whether to invoke "cloture" on the filibuster of the Cornyn amendment (R-TX), the Securing Our Homeland from Radical Islamists and Enhancing Law Enforcement Detection Act (SHIELD) Act, which would have 1) authorized the Attorney General to delay and, upon showing of probable cause, block the sale of firearms to suspected terrorists; 2) authorized the Attorney General to take the purchaser into custody upon showing of probable cause; and 3) inform federal, state and local law enforcement of the purchasing situation so they could monitor accordingly. Pro-national security vote: YES; Rejected 53-47 (60 votes required for successful motion to invoke cloture) (Vote #105, June 20, 2016)
- 13. Vote to proceed with voting on bill to expand FBI intelligence-collection powers. The vote was on whether to invoke "cloture" on the filibuster of an amendment sponsored by Senators McCain (R-AZ) and Burr (R-NC) that would have allowed the FBI to use National Security Letters to obtain internet records to assist in terrorism investigations, and would have made permanent the "lone wolf" provision of the Patriot Act for purposes of tracking terror suspects not affiliated with overseas organizations. Pro-national security vote: YES; Rejected, 58-38, 4 not voting (60 votes required for successful motion to invoke cloture) (Vote #108, June 22, 2016)
- **14. Vote to proceed with voting on denial of funds and other penalties for sanctuary cities, illegal entrants.** The vote was on whether to invoke "cloture" on the filibuster of S. 3100, a bill that would have denied federal funds to jurisdictions that restrict information sharing on an individual's immigration status or prohibit state compliance with detainer requests. - **15. Vote to proceed with voting on increasing penalties on repeat illegal entrants.** The vote was on whether to invoke "cloture" on the filibuster of S. 2193, also known as "Kate's law", which would have increased criminal sentences for individuals who enter the United States illegally despite previous deportation. Did Not Vote

NV Did Not Vot

I Ineligible to vote (e.g. not in office)

Scores are based upon the legislator's aggregate record on these important votes. If, for example, a Senator was absent for two of the examined votes, but cast his or her remaining votes in a pro-national security way, he or she would receive a total score of 100%. The same applies for votes taken before a Senator assumed office in mid-term; votes for the session from before he or she started serving do not count towards the total votes cast
